DETAILED ACTION

Response to Arguments

Applicant's arguments, filed 1/23/07, with respect to claims 1 and 9 have been fully considered and are persuasive. The 35 U.S.C. 112, second paragraph rejection of claims 1-4, 9 and 10 has been withdrawn.

Allowable Subject Matter

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art does not contain a valid combination of references that teach writing color component values corresponding to even pixels in first entry locations in a dither cell; writing color component values corresponding to odd pixels in second entry locations in said dither cell; and mapping said dither cell to a staggered dither cell such that lines of said even pixel values are staggered relative to lines of said odd pixel values.

Regarding claim 5, the prior art does not contain a valid combination of references that teach and $N * N$ entry cell where N divides evenly into the number of dots printable by each segment of a printhead; more than one color component value stored in each entry location of said cell; and lines of said values corresponding to odd pixels of said image in said cell staggered relative to lines of said values corresponding to even pixels of said image.

Regarding claim 9, the prior art does not contain a valid combination of references that teach storing an un-interpolated version of said image in a first buffer; storing color component values corresponding to odd and even pixels in a dither cell; staggering lines of said color component values corresponding to odd pixels relative to lines of even pixel values to form a staggered dither cell; comparing each pixel value in said first buffer with its corresponding value in said dither cell; and outputting an instruction to print to a second buffer if said value from said first buffer is greater than or equal to said staggered dither cell value.

Claims 2-4, 6-8 and 10 are allowed because they depend upon allowed base claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
